About Yorbeau Resources Inc.

Yorbeau Resources is a diversified mining exploration company with an enviable portfolio of exploration properties in Quebec. The exploration projects comprise both gold and base metal projects, and the strategic focus of the Company is on projects located in areas easily accessible and with infrastructure. The wholly-owned Rouyn Property is the Company’s main gold asset and contains four known gold deposits in the 6 km long Augmitto-Astoria corridor situated on the western portion of the property. The Company signed a definitive agreement in December 2018, whereby IAMGOLD has the option to acquire a 100% interest in the Rouyn property, where very encouraging drilling results were obtained in 2019. The base metal assets include the Scott Project, which bears important mineral resources (see the press release dated March 30, 2017) and on which a positive Preliminary Economic Assessment was recently completed.
