Notes to Condensed Interim Financial Statements, Continued

Six months ended June 30, 2022 and 2021

(Unaudited)

1. Reporting entity and going concern:

Yorbeau Resources Inc. (“Yorbeau” or the “Company”) is a company domiciled in Canada and incorporated under the laws of the Province of Québec. The address of the Company’s registered office is 50 West Crémazie Boulevard, Suite 403, Montréal, Québec H2P 2T1.

The Company is involved in the exploration of mineral properties in the Province of Québec. The Company has taken steps to verify the title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties. However, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

The condensed interim financial statements have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business.

The Company is in the exploration stage with its mineral properties and projects and has not yet determined whether its properties and projects contain ore reserves that are economically recoverable. Operating activities have not yet generated any revenues. Management expects that the working capital available to the Company at the end of the year will not provide the Company with adequate funding to cover its budgeted general administrative expenses and to meet its short-term obligations for the next 12 months, and to complete its planned 2022 calendar year exploration budget. Consequently, the Company will need to obtain additional financing in 2022. The Company currently has no committed sources of financing available. The Company has relied upon external financing to fund its operations in the past, primarily through the issuance of equity and amounts received from mining property option agreements.

The ability of the Company to meet its commitments and discharge its liabilities as they become due and pursue the acquisition of mineral properties and the development of projects is dependent on its ability to develop its mining properties and achieve commercial production and on its ability to raise additional funding to finance its operations. There can be no assurance that the Company will be able to obtain financing in the future, and there can be no assurance that such financing sources or initiatives will be available to the Company or that they will be available on terms acceptable to the Company. Further, the recoverability of amounts shown for mining properties and exploration and evaluation assets is dependent upon the ability of the Company to obtain necessary financing to complete the exploration and development thereof, and upon future profitable production or proceeds from the disposal of properties.

The conditions mentioned above indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. The condensed interim financial statements do not reflect the adjustments to the carrying amounts of assets and

liabilities that would be necessary if the Company were unable to realize its assets or discharge its obligations in anything other than the ordinary course of operations.

2. Statement of compliance:

These condensed interim financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS"), including IAS 34, *Interim Financial Reporting*, and in accordance with the accounting policies used by the Company in its most recent audited annual financial statements.

These unaudited condensed interim financial statements do not include all the information required for full annual financial statements, and therefore, should be read in conjunction with the audited annual financial statements and the notes thereto for the year ended December 31, 2021.

3. Basis of preparation:

(a) Basis of measurement:

The unaudited condensed interim financial statements have been prepared on the historical cost basis except for

- Share-based compensation transactions, which are measured at fair value at grant date pursuant to IFRS 2, *Share-Based Payment*;
- Lease liabilities, which are measured at the present value of minimum lease payments at the commencement date pursuant to IFRS 16, *Leases*; and
- The liability for flow-through shares which is recorded at fair value at the date of the financing announcement.

(b) Functional and presentation currency:

These unaudited interim condensed financial statements are presented in Canadian dollars, which is the Company's functional currency.

(c) Use of estimates and judgments:

The preparation of the unaudited condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

3. Basis of preparation (continued):

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is included in the following notes:

- Note 10 - Estimation of the provision for site restoration costs;
- Note 12 - estimation of the fair value of the liability related to flow-through shares.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

4. Significant accounting policies:

These unaudited condensed interim financial statements have been prepared using the same accounting policies used in the audited financial statements as of December 31, 2021.

5. Tax credits and other receivables:

8. Mining properties and exploration and evaluation assets (continued):

Exploration and evaluations assets (continued):

a) Rouyn Property:

Yorbeau owns a 100% interest in the Rouyn property which is located in the Rouyn and Beauchastel townships in Québec. The Rouyn property is composed of one mining concession and a group of 95 mining claims. Twelve of the 95 mining claims are subject to a \$50,000 per annum royalty payable to Société Minière Alta Inc., a company controlled by a director of Yorbeau.

On December 17, 2018 (the "Effective Date"), Yorbeau entered into a definitive option agreement ("Option Agreement") with IAMGOLD Corporation ("IAMGOLD"), whereby IAMGOLD has an option to acquire a 100% interest in the Rouyn property in Québec, Canada.

The Option Agreement provides that, subject to certain conditions, IAMGOLD would make certain payments and incur exploration expenditures toward an option to purchase a 100% interest in the Rouyn property. In order to earn the purchase option, IAMGOLD is required to:

- (i) Make an initial cash payment to Yorbeau of \$1 million on the effective date of the Final Option Agreement;
- (ii) Fund and incur \$9 million of exploration expenditures in a period of up to forty-eight (48) months following the Effective Date (the "Expenditure Period"), including minimum exploration expenditures in each 12-month period of the Expenditure Period and at least 20,000 metres of diamond drilling within a twenty-four (24) month period following the later of the Effective Date or the date all requisite governmental approvals or consents for the drilling program are obtained;
- (iii) Make interim cash payments to Yorbeau during the Expenditure Period of an aggregate amount of \$3 million;
- (iv) Complete a resource estimate for the Rouyn property in accordance with IAMGOLD's standard estimation and reporting practices subject to detailed technical parameters to be agreed between IAMGOLD and Yorbeau; and
- (v) Make a final cash payment to Yorbeau, in three instalments over up to a two-year period following the Expenditure Period, in an aggregate amount equal to the lesser of (a) an amount calculated by multiplying the total number of ounces of gold identified in the resource estimate by \$15.00 and (b) \$30 million.

In addition to the final cash payment, Yorbeau will be issued and granted by IAMGOLD, at the time of exercise of the option, a 2% NSR royalty on the minerals produced on the Rouyn

property. IAMGOLD will be the operator and project manager of the Rouyn property during the option period. Yorbeau will be represented on a technical committee that will oversee the work program.

The agreement also stipulates that IAMGOLD may engage Yorbeau to perform exploration work on the Rouyn property in exchange for reimbursement of Yorbeau's costs plus 10% administration fee. During the period ended June 30, 2022, Yorbeau recognized \$380,151 (2021 - \$352,830) as contract revenue under this arrangement in the statement of loss and comprehensive loss.

The Option Agreement is considered a farm-out agreement. As a result, the initial cash consideration of \$1 million and interim cash payments have been recognized as a reduction of the Rouyn exploration and evaluation assets.

b) Beschefer property:

In 2002, Yorbeau entered into an agreement with Explorers Alliance Corporation ("Explorers"), pursuant to which Yorbeau acquired from Explorers an 80% interest in 149 staked mining claims in consideration of the issuance of 350,000 Class A common shares. In 2005, Yorbeau abandoned 12 of these claims. The Company also has the option to acquire, at any time, the remaining 20% interest held by Explorers in consideration of either a cash payment of \$500,000 or the issuance of 1,800,000 additional Class A common shares, as determined by Explorers. Yorbeau also owns a 100% interest in 120 staked claims located in the Beschefer Township. The 257 staked claims which form the Beschefer property were converted in July 2012 into an aggregate of 115 map designated claims. Yorbeau acquired 13 additional claims in 2020, which brings the total to 128. Yorbeau owns a 100% interest in 63 of these claims and an 80% interest in the remaining 65 claims.

c) Gemini, Turgeon, Kistabiche, Bonfortel, Poirier and Allard:

The Gemini-Turgeon property results from the merging of two contiguous mining properties: the Gemini property and the Turgeon property. It is located 80 kilometers north of La Sarre in Abitibi region of Quebec, more specifically in the Laberge and Casa-Berardi townships. The property consists of 351 claims.

- Yorbeau has a 50% interest in the Turgeon property, with the remaining 50% interest held by IAMGOLD. Certain claims of this property are subject to a 2% NSR royalty in favor of a third party.

The Joutel- Explo Zinc property results from the merging of three mining properties: Kistabiche, Bonfortel and Poirier. It is located 135 kilometers north of Amos in the Abitibi region of Quebec, more specifically, in the Joutel and Poirier Townships.

- Yorbeau owns a 100% interest in the Bonfortel and Poirier blocks. Certain claims of this property are subject to a 2% NSR royalty in favor of a third party;
- Yorbeau owns a 73.87% interest in Kistabiche, with the remaining 26.13% interest held by a third party.

The Allard property is located 175 kilometers north of Amos in the Abitibi region of Quebec, more specifically in Desmazures Township. Yorbeau owns a 70% interest in the property and the remaining interest of 30% is held by a third party.

d) Selbaie West:

Yorbeau owns a 100% interest in the Selbaie West property, which is located in the Carheil and Brouillan townships in Quebec. The property consists of 105 claims, 100 of which are subject to a right of return in favor of First Quantum Minerals Ltd. ("First Quantum") pursuant to an agreement dated June 29, 2009 as amended on January 15, 2015 (the "Back-in Right Agreement"). Under the terms of the Back-in Right Agreement, First Quantum has the right to earn back a 50% interest in the property by funding, with Yorbeau as operator, the exploration expenditures on the property in an amount equal to twice the amount of expenditures made on such property since it was acquired by Yorbeau. If First Quantum does not exercise its back-in right, it will be entitled to receive a 1% NSR royalty on the claims which are subject to the said back-in right.

e) Scott Lake:

Yorbeau owns a 100% interest in the Scott Lake property, which is composed of three (3) claim blocks totalling 123 claims located in the Scott, Lévy and Obalski townships in Quebec. Some of these claims are subject to production royalties to third parties, as follows:

10. Provisions (continued):

and brine and the Act respecting the preservation of agricultural land and agricultural activities. In determining the estimated costs, the Company takes into account factors such as changes in legislation and regulations and requirements under existing permits.

The Company anticipates total restoration costs in relation to the aforementioned regulations of \$279,000 (2021 - \$279,000) for the Astoria site and \$60,000 (2021 - \$60,000) for the Augmitto sites. These amounts represent what is anticipated in the most recent mine site closure plan approved by the government authorities. Any future adjustments to this provision due to changes in laws, regulations and operating assumptions will be added to the cost of the underlying asset and could be significant. The effect of discounting is not material to these financial statements. The balance at June 30, 2022 was \$339,000 (2021 - \$339,000)

11. Loan:

Consists of a term loan of \$60,000 (2020 - \$40,000) under the Canadian Small Business Emergency Account, interest free before December 31, 2023, with \$20,000 being forgivable provided \$40,000 is paid back before December 31, 2023. The effect of discounting the loan is not material to these financial statements.

Outstanding loan on December 31, 2023 will be converted to a 2-year term loan at 5% annual interest, paid monthly, effective January 1, 2024, with the loan fully due by December 31, 2025.
