YORBEAU RESOURCES INC.

Notes to Condensed Interim Financial Statements,
Three months ended March 31, 2024 and 2023
(Unaudited)

1. Reporting entity and going concern:

Yorbeau Resources Inc. (“Yorbeau” or the “Company”) is a company domiciled in Canada and incorporated under the laws of the Province of Quebec. The address of the Company’s registered office is 50 West Crémazie Boulevard, Suite 403, Montréal, Quebec H2P 2T1.

The Company is involved in the exploration of mineral properties in the Province of Quebec. The Company has taken steps to verify the title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties. However, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

The condensed interim financial statements have been prepared on a going concern basis, which assumes the Company will continue its operations in the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the ordinary course of business.

The Company is in the exploration stage with its mineral properties and projects and has not yet determined whether its properties and projects contain ore reserves that are economically recoverable. Operating activities have not yet generated any revenues. Management expects that the working capital available to the Company at the end of the year will not provide the Company with adequate funding to cover its budgeted general administrative expenses and to meet its short-term obligations for the next 12 months, and to complete its planned 2024 calendar year exploration budget. Consequently, the Company will need to obtain additional financing in 2024. The Company currently has no committed sources of financing available. The Company has relied upon external financing to fund its operations in the past, primarily through the issuance of equity and amounts received from mining property option agreements.

The ability of the Company to meet its commitments and discharge its liabilities as they become due and pursue the acquisition of mineral properties and the development of projects is dependent on its ability to develop its mining properties and achieve commercial production and on its ability to raise additional funding to finance its operations. There can be no assurance that the Company will be able to obtain financing in the future, and there can be no assurance that such financing sources or initiatives will be available to the Company or that they will be available on terms acceptable to the Company. Further, the recoverability of amounts shown for mining properties and exploration and evaluation assets is dependent upon the ability of the Company to obtain necessary financing to complete the exploration and development thereof, and upon future profitable production or proceeds from the disposal of properties.

The conditions mentioned above indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. The condensed interim financial statements do not reflect the adjustments to the carrying amounts of assets and

liabilities that would be necessary if the Company were unable to realize its assets or discharge its obligations in anything other than the ordinary course of operations.

2. Statement of compliance:

These condensed interim financial statements have been prepared in accordance with the International Financial Reporting Standards ("IFRS"), including IAS 34, *Interim Financial Reporting*, and in *accordance* with the accounting policies used by the Company in its most recent audited annual financial statements.

These unaudited condensed interim financial statements do not include all the information required for full annual financial statements, and therefore, should be read in conjunction with the audited annual financial statements and the notes thereto for the year ended December 31, 2023.

3. Basis of preparation:

(a) Basis of measurement:

The unaudited condensed interim financial statements have been prepared on the historical cost basis except for

- Share-based compensation transactions, which are measured at fair value at grant date pursuant to IFRS 2, *Share-Based Payment*.
- Lease liabilities, which are measured at the present value of minimum lease payments at the commencement date pursuant to IFRS 16, *Leases*; and
- The liability for flow-through shares which is recorded at fair value at the date of the financing announcement.

(b) Functional and presentation currency:

These unaudited interim condensed financial statements are presented in Canadian dollars, which is the Company's functional currency.

(c) Use of estimates and judgments:

The preparation of the unaudited condensed interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

- Note 10 - Estimation of the provision for site restoration costs;
- Note 12 - Estimation of the fair value of the liability related to flow-through shares.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

10. Provisions:

The Company's provisions consist of obligations for site restoration costs associated with mine reclamation and closure activities at the Astoria and Augmitto sites on the Rouyn property as required under the *Regulation respecting mineral substances other than petroleum, natural gas and brine and the Act respecting the preservation of agricultural land and agricultural activities*. The Company anticipates total restoration costs in relation to the aforementioned regulations of \$103,000 (2022 - \$279,000) for the Astoria site and \$236,000 (2022 - \$60,000) for the Augmitto sites. These amounts represent what is anticipated in the most recent mine site closure plan approved by the government authorities. The effect of discounting is not material to these financial statements.
